k!DOCTYPE html>

Tijdens dit project heb ik onder andere de form-pagina en de Over ons-pagina gecodeerd. Op de form-pagina heb ik een if-statement toegevoegd dat de gebruiker laat weten of het bericht succesvol is verzonden of niet. Het formulier vraagt naar de naam, e-mailadres en een bericht, zodat bezoekers feedback kunnen geven of contact kunnen opnemen.

Daarnaast heb ik styling en pictogrammen geïntegreerd voor een aantrekkelijk design en gebruik gemaakt van JavaScript voor formuliervalidatie en interactie. De Over onspagina biedt duidelijke informatie over de website en sluit qua stijl aan op de rest van de site.

Samenvattend heb ik HTML, CSS en JavaScript gecombineerd om een functionele en gebruiksvriendelijke website te maken.
